

Who we are

Transitions For You is an organization tailored to teaching and facilitating a better life for Persons at Risk.

We believe Person Centered Planning to be a powerful avenue that can be used to enhance Advocacy where it is needed.

At our core are Terry and Kerry Croft; parents, teachers and consultants. Our staff have a desire to see success for all persons who may be at a physical, psychological, mental or cultural disadvantage.

The Reality

Workers rarely expect to become injured during the course of their career. The process of discovery and recovery associated with a debilitating injury can be long, complex and painful.

Communicating with health and government organizations can be confusing and stressful. Keeping accurate documentation for answering questions and indicating progress can also be daunting tasks.

As you find your way through injury caused minefields, Transitions For You can provide avenues to make it easier.

Planning documents at Transitions For you are accessible 24/7 and can help you to:

- Compile important information
- Communicate with doctors, professionals, teachers, employers, and government
- Coordinate supports
- Obtain financial assistance
- Record successes and strategies
- Plan for the future and for change
- Help Individuals to be heard
- Obtain information from others
- Obtain consensus for positive action
- Create safety & educational opportunities that turn a need into a successful skill.

What we do

Transitions For You provides a range of products and services including seminars, training and curriculum that assist Persons at Risk.

Our Web site is specifically tailored to making it easy to create, maintain and print important planning documents. Transition Plans and Lifestyle or Service Plans are known and used in many places around the world. Governments and various organizations use such planning documents.

We help you with:

Planning Documents

- Transition Plan creation
- Lifestyle or Service Plan creation
- Daily reports
- Critical Incident reports
- Year end summary
- Plan and goal status archives

Curriculum

- Lesson manuals for specific subjects

Training

- Using the Transitions For You Web site
- Strategies in working with Persons at Risk

Seminars

- Motivation, understanding
- Achieving goals
- Data collection
- How to use Planning documents

We serve People at Risk who are an important part of our society. They include those with intellectual as well as physical disabilities. They also include people without disabilities who are facing challenging life obstacles.

- Individuals with Intellectual or Developmental disabilities
- Seniors who are anticipating change
- Immigrants from different cultures
- Injured workers
- Individuals with new physical disabilities
- Individuals who have been in trouble with the law.
- Native Canadians who have faced difficult cultural challenges.

You can start planning today. Purchase on-line at _
